Historic, archived document

Do not assume content reflects current scientific knowledge, policies, or practices.

This catalog is worth reading thru from first to last. It is not possible to emphasize on the first page all the exceptional items it contains and there are more unusual and choice rock garden plants listed herein than in any other catalog of its kind.

We wish to emphasize the fact that all the plants listed are hardy anywhere in this country and very few are difficult. We have many choice perennials in our exhibition garden which we do not list and we extend a cordial invitation to come and see them at any time.

We guarantee safe delivery in good condition.

Three plants of one variety may be ordered for $2\frac{1}{2}$ times the unit price; five plants of one variety for the price of four.

TERMS

NET CASH WITH ORDER ORDER BY NAME AND NUMBER

Carriage charges paid east of the Mississippi.

Add 5% for carriage west of the Mississippi.

Add 10% for carriage and special packing to Canada, Cuba and Hawaii.

We guarantee safe delivery in good condition.

All shipments will be made at proper time for planting unless otherwise specified.

We do not substitute.

Quantity and dealers prices on application.

Price in every case is for single plants and unless otherwise specified five of one variety will be sent for the price of four.

We cannot fill orders for less than \$1.00.

Paramount Gardens

PLAINFIELD, N. J.

BULBS

If you are going to use bulbs this year you will want our complete bulb catalog; Tulips, Narcissus, Hyacinths, Crocus, Lillies, Iris and others; thirty-two pages in color; a card will bring it to you.

PERENNIALS

For the Alpine Garden

NATIVE ORCHIDS

Terrestrial

These odd, exquisite, lovely flowers should be in every rock garden. Few realize the number of varieties available for use in the garden nor the ease with which they can be handled and established. All these listed are hardy anywhere; while all like shade and moisture, some like Hab. Ciliaris, Calapogon and the Spiranthes, will endure full sun and most of them make good cut flowers.

anywhere; while all like shade and moisture, some like
Hab. Ciliaris, Calapogon and the Spiranthes, will endure
full sun and most of them make good cut flowers.
207-CALANTHE DISCOLOR ODORATA GRANDI-
FLORA — 'Glory of Chugai,' a beautiful cluster
of golden yellow blossoms on a 15" stem, na-
tive of Japan2.00
